

Do you have room in your heart to become a foster caregiver?

Methodist Mission Northern is a highly respected provider of safe, supportive and quality foster care to children and young people in need.

Due to a specific need in the Auckland community, the Mission's West Auckland Family Services is looking for people to provide care for children in the 0-16 age range.

We need foster caregivers right across the Auckland region, not just in West Auckland.

Ideal candidates will possess an awareness of the developmental needs of children. This means providing a home environment that is positive, supportive and nurturing of the physical and emotional needs of children.

This is a challenging yet highly rewarding role, which would suit people with a genuine interest in the welfare and development of children.

If you have the qualities needed to fulfill this role and would like to know more, we would love to hear from you. **Please call West Auckland Family Services on (09) 818 6834.**
